

WASH'Nutrition Survey

A yearly monitoring of WASH'Nutrition integration
in ACF missions

Objectives

To know where WASH and Nutrition programs are present and what are their main activities in the AAH-IN missions

To highlight the degree of integration between WASH and Nutrition programs

To know where and what is needed for better integration WASH and Nutrition activities

To stimulate WASH & Nutrition experts, by answering together the survey, to find integrated strategies and foster a joint programming

To support better AAH-IN missions

To get material for advocacy

Methodology

Yearly monitoring of ACF missions with nutrition response (40 on 50)

SurveyMonkey with 29 questions filled by WASH and Nutrition experts together

The project started in 2013

The questionnaire is structured around the compliance of missions toward WASH'Nutrition 5 strategic pillars
