General information

This kit is part of the International Federation's Water and Sanitation Disaster Response.

Two versions are available: one with purification tablets, one with household water filters.

Designed for response to the needs of scattered populations at household level and when beneficiary numbers are limited, this kit provides:

- Water treatment at household level for up to 2,000 beneficiaries (400 families), with no central treatment or storage capacity.
- Very basic sanitation facilities for a small population.

Specifications

Refer to individual item sheets for the items specifications.
