MULTI-SECTORAL NUTRITION STRATEGY

2014-2025

Objective of the *Multisectoral Strategy*

Scale up effective, integrated nutrition-specific and nutrition-sensitive interventions, programs and systems, across humanitarian and development contexts

- ◆ Increased equitable provision and utilization of high quality nutrition services
- ◆ Increased country capacity and commitment to nutrition
- ◆ Increased multi-sectoral programming and coordination for improved nutrition outcomes
- ◆ Increased nutrition leadership

Targets of the Multisectoral Strategy

Contribute to the reduction of child stunting by 20%

- ◆ In USAID focused intervention areas, reduce the number of stunted children by 2 million over five years

In humanitarian crises, maintain Global Acute Malnutrition below 15%

Merci!
